Da Nang City, Vietnam

About Me

As a dedicated Backend Developer, I specialize in creating dynamic web applications. With expertise in PHP Laravel, Node.js, Vue.js, React.js, and SQL, I excel in back-end development. Currently, I'm honing my skills through an internship as a Java Backend Developer.

Skills

- HTML, CSS, Javascript
- React.js, Vue.js
- Node.js
- Java
- PHP Laravel
- SQL Sever, MySQL, MongoDB
- Github

Career Objective

Over the next 2-3 years, I am to work as a full stack developer, dedicating myself to honing my skills and expertise in this field.

Completed Courses
